

KRYTEX PPF GEL

Film installation gel

Packaging: **500 ml**

A gel for maximum maneuverability: the film stays mobile during installation without sticking. It doesn't run off vertical surfaces and covers them completely, lets you install film on complex shapes without soapy water or alcohol, and enhances adhesive bonding.

KEY PROPERTIES

- Smooth film repositioning without sticking, even on complex shapes.
- Enhances adhesive bonding.
- Ready to use — no dilution required.
- Stays on vertical surfaces with full coverage.
- No soapy water or alcohol required.
- Colourless, odourless and non-flammable.
- Residues wash off easily with water.
- Can be decanted into any container; professional sprayers recommended.

SPECIFICATIONS

Type	Installation gel	Dilution	not required
Application	Film installation, incl. complex shapes	Volume	500 ml

COMPOSITION & STORAGE

Composition	Purified water, thickener, wetting agent, surfactant, polymer adhesion promoter.
Shelf life	36 months
Storage	Keep tightly closed in the original container at +5...+25 °C. Do not freeze. Do not use after the expiry date.

Data are based on laboratory tests and practical experience and are given for reference. Actual results depend on surface condition, application conditions and maintenance. Test on an inconspicuous area before use.
